# Selection

AUA practices **holistic admissions**. Each application is initially screened for technical eligibility. The Undergraduate Admissions Committee then conducts a thorough review of each eligible application. This process may include an interview. As admission to AUA is highly competitive, the committee considers your:

application → high school GPA → English exam → math exam → extracurricular activities → volunteer experience → two essays → admissions interview (mandatory, if invited) → application

# Target Scores

The target scores to the right are for informational purposes only. Scoring at or above the targets does not guarantee you admission to AUA. Alternatively, if you score below the targets, you may be considered for conditional admission. However, applicants who score at or below automatic denial thresholds will be denied admission to AUA (see **admissions. aua.am/ugrad-denial).**
