## About the ACT

The ACT is an internationally administered standardized test that helps colleges evaluate candidates. More than 1.8 million graduates take the ACT each year. Many students take the ACT for the first time in the spring of their junior year (11th grade). Without the optional Writing Test, the ACT exam lasts 2 hours and 55 minutes—or 3 hours and 35 minutes with the Writing Test. The order of the exams is as follows:

- English** – 45 minutes (75 Questions)
- Math** – 60 min (60 Questions)
- Reading** – 35 minutes (40 Questions)
- Science** – 35 minutes (40 Questions)
- Writing** (Optional) – 40 minutes (1 prompt)

To meet AUA's math proficiency requirement, the ACT is one of two available options. The Undergraduate Admissions Committee only considers the math section of the exam. The ACT math section covers topics including essential skills, numbers quantity, algebra, functions, geometry, statistics, and probability and contains 60 questions you must answer in 60 minutes. However, some applicants report they are unable to send AUA a score report if they do not take the entire exam.

## Where and when can I take the ACT test?

The ACT is typically administered 6 times throughout the year. If you plan to take the test in Armenia, there are two test centers in Yerevan located at the American University of Armenia and Ayb School. To learn more about the locations and available test dates, log in to your account at [global.act.org](http://global.act.org)

**For AUA admission purposes, please note that your ACT score is valid for 3 years from the date you take the test.**

## How Much Does the ACT Cost?

Registering for the ACT outside the US or Canada will cost \$168.50 (ACT test excluding the writing section) or \$188.50 (including the writing portion). You will incur an additional \$16 fee to report your official ACT score if you do not do so at the time of registration.
